CS 460 Computer Communications and Networking
Fall 2005
Program #3 Survey

Due: 3 November 2005

Bring a copy of this sheet when you visit the TA to grade your program.

1. Identification

Print clearly, include full name of all project participants.

1.
2.
3.

2. Program Grading

TA: Check the boxes below to indicate which functions of the student's program perform properly and to award bonus or deduct penalty points.

Crawling the Network

□ Peer can be crawled
Start one solution peer and 7 student peers. Use a crawl from the solution peer to verify that it can find all 7 student peers and their neighbors.

□ Peer can crawl the network
Start 8 solution peers and one student peer. Use a crawl from the student peer to verify that it can find all solution peers and their neighbors. No credit if the student peer uses all 8 solution peers as neighbors.

3. Program Score

TA: Fill in the information below when the student(s) agrees to turn in the program with this score. Have the student(s) sign below and then turn the sheet in to the professor.

TA: Date:
Score:

4. Student Signatures

By signing here you agree to turn in this version of your program for the above score. You may not turn in another version at a later point.
